

Tanishk Jain

+91 9315747674 — tanishkjain3011@gmail.com — LinkedIn — GitHub

Summary

Software development intern with strong foundations in Data Structures, Algorithms, and Object-Oriented Programming. Experienced in building and debugging scalable full-stack applications and machine learning systems. Self-driven problem solver with hands-on experience in real-world product development and the ability to contribute independently in fast-paced environments.

Technical Skills

Programming: Python, C++, Java, JavaScript

Core Concepts: Data Structures & Algorithms, OOP, Problem Solving, Debugging

Frameworks & Libraries: React, Flask, NumPy, Pandas, Scikit-learn

Databases & Tools: PostgreSQL, SQLite, Git, GitHub, VS Code

Cloud & Deployment: AWS, Vercel

Projects

Fenero – Capital Advisory Platform [Live Deployment]

Oct 2025 – Present

React, JavaScript, Python, Flask, SQLite

Built a production-grade full-stack platform handling real-world financial workflows including client management and bank matching. Designed scalable backend APIs, implemented secure authentication flows, and optimized frontend performance for responsive user experience.

Parkinson's Prediction Using Voice Recognition [GitHub]

Apr 2024

Python, Scikit-learn

Developed a machine learning model achieving 92%+ accuracy for early disease detection. Applied feature engineering, model evaluation, and explainability techniques (SHAP, LIME) to improve reliability and interpretability.

Landslide Detection Using Satellite Imagery [GitHub]

Oct 2024

Python, OpenCV, NumPy

Engineered an image-processing pipeline to detect landslide-prone regions using pixel-level analysis and segmentation, demonstrating strong analytical and problem-solving skills.

Experience

Software Developer Intern – Djubo

Jan 2026 – Present

Frontend & Backend Development

Contributing to development and debugging of production systems across frontend and backend. Worked on feature implementation, issue resolution, and improving system performance while collaborating in a real-world startup environment.

Education

VIT Bhopal University, Bhopal, MP

2023 – Present

B.Tech in Computer Science Engineering (AI & ML Specialization)

G.D. Goenka Public School, Ghaziabad, UP

2018 – 2023

Class XII – Science (Mathematics, Computer Science)

Certifications

Applied Machine Learning – University of Michigan (Coursera)

Data Science – LaunchEd Global

Cloud Computing – NPTEL

AI & Data Science Virtual Internship – Lloyds Banking Group (Forage)
